Communication between trucker and Transtainer's operator (RTG)

Here is how to communicate the location of your container in the stack with the Transtainer's operator:

1 - Find your container in the stack.

2 - Use the numbered signs (Pictures 1.1 and 1.2) on the Transtainer, to tell the Transtainer's operator where your container is in the stack.

3 - Use the code, to tell the Transtainer's operator the height of your container in the stack.

Picture 1.1   Picture 1.2

Communication between trucker and
Transtainer's operator (RTG)

Please use the numbered signs (1 to 6) on the Transtainers to indicate to the Transtainer's oparator the stack where your container is located. Do not count the space blanks. Count only the existing stacks. Stack # 1 is on the side of the truck.
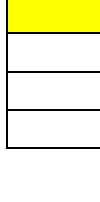

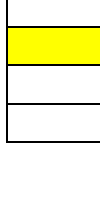

Examples :

#1	#2	#3	#4	#5	#6

Empty	Empty	#1	#2	#3	#4

#3	Empty	Empty	#2	Empty	#1
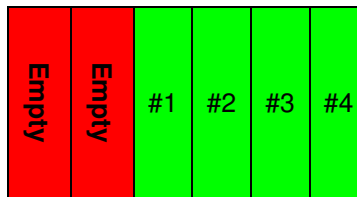

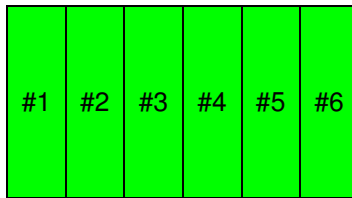

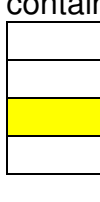

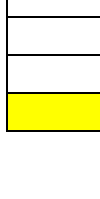

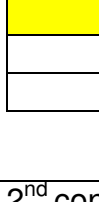

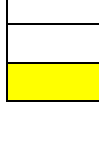

Communication between trucker and Transtainer's operator (RTG)

The following codes are only to indicate the height in the stack.

5th container	Head

4th container	Shoulder	4th container	Head

| 3rd container	Waist	3rd container	Shoulder	3rd container	Head

2nd container	Knee	2nd container	Knee	2nd container	Waist	2nd container	Head

1st container	Ground	1st container	Ground	1st container	Ground	1st container	Ground
