Object: Update on RFID tag project

Attention Transport Companies

Dear partners,

We noticed that several transport companies still do not have purchased or installed their RFID tags. It is not too late to get your RFID tags directly from Termont; we encourage you to do so as soon as possible. To assist companies that are not yet compliant, **we have extended the period to place your orders and to pick up your tags while supplies last.**

We reiterate the launch date of RFID tags, mandatory for all trucks operating in our terminals **as of September 3rd, 2024.**

Here are the terms and conditions for purchasing and distributing tags from Termont:

Termont partially amortizes the initial purchase investment of RFID tags by offering a total of 2 000 tags at a **cost of 125\$ CAD each.** Find out below how you can benefit from this offer.

How to get my Tags?

Effective immediately, you can get your tags directly from Termont by filling out an order form on the [Termont RDV](#) platform. A 24hr delay is required between the time the order form is sent and the receipt of the tags.

What happens once the initial quantity of Tags is sold out?

Please note that the number of tags offered at this cost is limited and that their availability is on a first-come, first-served basis. Once the initial quantity is sold out, it is the responsibility of the carriers to obtain them from our official supplier eModal via their website at www.emodal.com.

Where will my Tags be sent to?

You must pick up your Tags at the Logistics Clerks' office located at the Port of Montreal (Section 74/75) at 450 rue de Boucherville, Montreal H1N 0C6 (corner Notre-Dame Street). **Pick up hours are between 8h00 and 17h00.**

**What is the payment method?**

Termont will send an invoice by email to the trucking company a few days after the order is processed. The amount invoiced by Termont is 125\$ CAD per unit. No cash will be accepted at the time of pick-up.

How can I get support?

If your questions remain unanswered, please contact our [Customer Experience](#) or call us at 514-254-0526.

As a reminder, a detailed procedure on how to install the tags is available on our website at www.termont.com/tags. We are counting on your cooperation to order only the quantity of tags you need. This will allow a maximum number of companies to benefit from the Termont offer.

We reiterate our commitment to the realization of this project, and we are convinced that the implementation of this geolocation technology will mark an important step towards improving the fluidity and safety in the terminals of Termont Montréal Inc. Together, we can contribute to a more efficient and a safer logistics chain, benefiting all members of our community.

Best regards,

L'équipe Termont
